supplies of American soldiers. These supplies will be rushed to the Near East from a French port.

It is a fact that the situation in the Near East indicates that lack of transportation facilities is the chief cause of famine. There is food enough to keep the inhabitants from starving, but it cannot be distributed to supply 425,000 square miles of country. There are only 80 miles of railroad. Consequently there is plenty of food in some sections of the country where food is grown, but great distress in those sections where no self-sufficiency in food supplies especially there is great need. On one occasion wheat became so scarce in a community in Persia that the price increased 1,200 per cent.

res dispatch from Salonika (December 14) reports that the 2,000,000 Armenians deported from the Turkey into 400,000 survived and that but more than one-fourth of the present Armenian population can survive until the next harvest without outside help.

Distressing as seem these reports, it is encouraging to know that even in cases of advanced emigration, such as shown in this illustration, feedstuffs respond to treatment. With food and medical care millions can be made strong and healthy. Thirty million of the "new" Turkey are to be saved in the next 10 years. It will help to save 100,000 lives. Considered only as an investment, it should be worth while.

GERMANS HAVE NOT KEPT AGREEMENT

Paris, Jan. 7.—Only ten days remain before the expiration of the time allotted to Germany for the payment of the armistice terms of Marshal Foch, and many of the details still remain not entirely complied with. This is particularly true as concerns article 4 of the armistice, regarding the surrender of war materials, especially guns and airplanes. About 5,000 motor trucks have been delivered up but the number of railroad engines turned over equals only half the number stipulated in the armistice—5,000. A great number of the 150,000 railway cars in good working order called for are still undelivered. In addition naval units, including submarines, remain in German ports, although under the terms of the armistice they should have been surrendered. Added to the nonfulfillment of the armistice terms is the failure of Germany to abide by her agreement to repatriate immediately a great number of Entente soldiers held as prisoners, and in high quarters here the question has arisen if in spite of Marshal Foch's accusations of indifference, the interallied command will not be more severe in its dealings with Germany when the expected request by Germany for a further delay in meeting the allied terms comes up for discussion.

Frank Connolly was here from Pikeville Thursday of last week. Capt. C. W. Myers was here from Ashland Monday. He has just returned from a trip to Florida.

HARRY MARRS SAFE.
A report was circulated here last week that Harry, son of W. A. Marrs, formerly of the C. & O. railroad office at this place, was killed in France. A letter from his father, J. B. Picklesimer, says they received a letter from him written a few days after the armistice was signed, saying he was all right.

DEATH IS PREFERABLE.

"Words fall me when I attempt to describe the scenes I witnessed in German prison camps. I have seen young men, men in the prime of life, wasted to skeletons by starvation and neglect. I have seen hundreds of British soldiers whose unattended wounds were gangrenous."—Capt. Fortmeyer.

JOHN C. C. MAYO COLLEGE

H. G. SOWARDS, Principal
PAINTSVILLE, KENTUCKY

ADVANTAGES—

Teachers of broad experience and adequate equipment. Christian environment. Active religious influences. A Christian character is built up on the basis of eternal truth and will stand unshaken amid the shock and storm of life's battle. This ought to be the first consideration in selecting a school. Here you have Christianity and religious influence in positive terms.

COURSES—

Academic—Good high school or college preparatory of (ered). All the required subjects and a number of electives. Standard course admitting to any college. Normal—Course offered meeting the State requirement for examination and what is better a thorough preparation for successful teaching.

Commercial—Strong course in bookkeeping, short hand typewriting and correlative subjects. Our graduates are equipped to fill the best positions. Unusual opportunities are now offered through the business course.

Music—Piano and Voice. This department has well merited the praise it receives. We have had far more than the average success and the course for this year is to be strengthened.

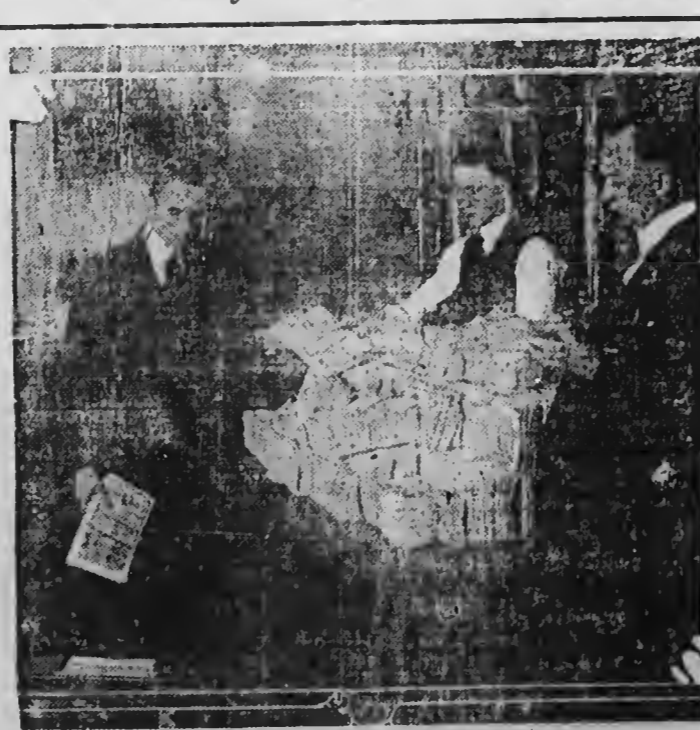

Expression—Kentucky is noted for oratory. It is a talent of marvelous power and when properly developed and cultivated makes one master of modern life. We believe it is a grave mistake to neglect this talent and are offering a splendid course in physical culture and expression.

Grades—So many people living in the rural communities desire for their children better school advantages and at the same time home care. In our elementary department we offer this opportunity. Our teachers are graduates having had special training for the grade work and in our dormitory the teachers will continue in charge. This gives you the advantage of the best schooling and also the same careful oversight of the home.

OUR DORMITORY—Girl students will be required to board in the dormitory where they will be under the immediate care of the teachers. This is not done to curtail liberties but to give to these young ladies that helpful sympathetic oversight that is so essential in the development of a wise and stable character.

INFORMATION—We invite your patronage and if you are thinking of sending your boy or girl away for the year's schooling we urge you to investigate the opportunities offered by the SANDY VALLEY SEMINARY. Write to H. G. Sowards, Principal Paintsville, Ky., for any further information you may desire.

In This District Dollar Vaul Are Handled All Liberty Bonds Sold In This District

MENTION of huge sums of money does not give us the thrill it once did before we got used to mousing the totals of war loans and war expenses.

But when you actually stand in a little room about 12 feet wide and 20 feet deep and are told that it normally contains a round billion of dollars in Uncle Sam's best currency and securities, the old thrill is bound to take hold of you.

Above is depicted the "billion dollar vault" in the basement of the Federal Reserve Bank of Cleveland. Your Liberty Bonds, you who live in the Fourth Federal Reserve district, have been in that vault. And these men banded them before they went to you.

In this same vault are handled all the certificates of indebtedness which are bought by banks in the interim between Liberty Bond issues and which are turned in for payment for bonds when the purchase is made. In the Third Loan these men handled, checked and shipped two and a half million places and in the Fourth Loan they checked, shipped

GIRLS! LEMON JUICE IS SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily.

SOMETHING ABOUT SUNNY FLORIDA

I will tell you something about this great country, the garden spot of the United States. The thermometer registered 74 December 27, 1916. Flowers in bloom, grass green, thousands of cattle roaming over the broad acres of grazing land. English Peas in bloom. Thousands of acres of cabbage are almost ready for the market. There are opportunities here for hustlers, but if you don't want to hustle and have plenty of money, come and spend the winters in Florida. Hundreds of people own orange groves here and still live in the north and come here in the winter; then go back north in summer and have a good income from the grove. I prefer staying here myself as you will know or Dr. Bromley can tell you I was an asthmatic as bad as any case in the Big Sandy Valley. I am cured and sound and well and don't want to take any chance on another attack. People are fine, kind, sociable and the very best of neighbors. I have made good here and this past summer has been one of pleasure. At no time was it over 99 at Orlando, Fla. I will be glad to answer any questions any of my friends may want to ask whether it profits me or not. You all know I am a Real Estate dealer and try to make a little on every deal, but not enough to hurt any one. With best wishes to all my friends and the News, I am, yours truly,
F. B. LINGCH, Orlando, Florida.

Rehabilitation of Soldiers Is Work Immediately Ahead

The great battle for the salvation of the world from German Kultur is not "over and done with" for a good many thousands of the men who have been fighting it, and consequently it is not "over and done with" for the Americans who have been backing them at home.

These thousands are coming back from the battle fields wounded and disabled. Their sacrifice will be continued throughout their lives.

But the sacrifice will be lessened as much as possible by the greatest surgical ability of the world, and by the money of the country.

A considerable part of the last Liberty Loan funds will be used in such rehabilitation work as the world never dreamed of in past years. It will include surgery, artificial limbs, medical services, and finally vocational training which will enable the soldier to take up his life again and make it of value to himself and society.

The picture above shows one retrained soldier for whom a mechanical arm, therefore must be made, and months of work in a chemical laboratory.

Liberty Loan Honor Counties Announced

Cleveland, Dec. 6.—The six proudest counties in the Fourth Federal District are those which first reached the Liberty Loan quota. Along with the pride of being first, they won the honor each of winning a U. S. ship. The counties are Ashland, Vinton, Franklin and Henry in Ohio; Hancock in West Virginia, and McCreary in Kentucky.

Frank K. Martin, auditor for the ship army, therefore must be made, and months of work in a chemical laboratory.

Peace, As War, Must Be Financed

We are going to have to finance peace for a while just as we have to finance war.

So says Secretary McAdoo in announcing the certainty of another Liberty Loan.

"There are over 2,000,000 United States soldiers abroad," he pointed out. "If we transport these men back to the United States at the rate of 50,000 a month it will be over half a year before they are all returned. Your money, therefore, must be made, and months of work in a chemical laboratory."
